## Call for Reviewers

The journal is always seeking conscientious reviewers and extends an invitation to agricultural researchers to join the Review Team of the Journal of NARC. We believe the best reviewers are persons who have published themselves. Ideally, we prefer persons who have published at least 6 manuscripts and hold a doctoral degree; however, will consider persons holding less than a doctoral degree, if they have more than 10 publications.

Reviewer needs to review papers electronically (eg track change mode in word file) and should have knowledge of online submission system and author's guidelines. To be a reviewer, please register NepJol website (<https://www.nepjol.info/index.php/JNARC/about/submissions#onlineSubmissions>). It is expected that manuscripts will be reviewed and returned within four weeks. A reviewer if repeatedly submit late reviews or fail to return reviews, he/she will be removed from the Review Team. If you are unable to review your manuscript within four weeks, kindly decline the review so that we may forward the manuscript without further delay to another reviewer.

This journal is a peer reviewed open access journal, abstracted and indexed in more than 27 databases. Paper is published free of cost and journal is distributed widely both color e-copy and color print copy. Please visit <http://narc.gov.np/narc-journal/> for journal details and reviewer's guidelines. We recognize your contribution by different means. If you agree to the aforementioned conditions, please submit an application with full name, subject/field, detail address including email and phone number at [narcjournal@gmail.com](mailto:narcjournal@gmail.com).
